## Skills

---

C | Java | JavaScript | React | Git | HTML | CSS | Tailwind

## Projects

---

### Movix

<https://movies-center-blond.vercel.app/>

MOVIX is a React and Tailwind CSS web app that utilizes the TMDB API to showcase trending movies and TV shows. Users can explore trending, popular, and recent titles, view detailed information, including trailers, and discover similar recommendations. With interactive features like ratings, MOVIX delivers a seamless entertainment browsing experience, highlighting my expertise in front-end development and API integration.

### Blog Page

<https://blog-project-contextapi.netlify.app/>

I created a dynamic blog page using React, incorporating the Context API for advanced functionality. Users can effortlessly explore and filter blogs by tags, titles, and categories, showcasing my expertise in React development and state management.

### Image Background Remover

<https://imagebgremove.netlify.app/>

This React-based project empowers you to effortlessly remove backgrounds from your images using the remove.bg API. Streamlining the background removal process, this application provides a user-friendly interface for enhancing your images.

### StudyNotion

<https://project-using-react-router.netlify.app/>

This project serves as my hands-on exploration of React Router and the implementation of protected routes. It features distinct pages including Home, About, Contact, Login, and Signup, all seamlessly interconnected through React Router. Additionally, the project incorporates a Dashboard page, accessible exclusively to authenticated users. In essence, navigating to the Dashboard requires successful login authentication.

### Weather Application

<https://manishjhacse.github.io/weather/>

This project is a weather application web page. Users can input a city name, click a search button, and get real-time weather information displayed on the page, and updates the displayed city name, temperature, humidity, wind speed, and weather condition image accordingly.

## Training and Internship

---

- |   |                        |
|---|------------------------|
| • <b>Suvidha Mahila Mandal (NGO)</b>   Web Developer Intern | <b>Dec'23 – Jan'24</b> |
| • <b>Internshala</b>   Training of Web Development          | <b>Jan'23 – Feb'23</b> |
